The Strassburger family legacy

In 1949 Morgan Strassburger Senior started his own business with a pick up truck and a simple idea ... customers expect quality workmanship and integrity at a fair price. It has been over sixty years since Morgan Sr. set the standards for the family business and it has earned a sterling reputation with customers, suppliers, staff and Ontario's outstanding dealer network.

The experience gained in over 60 years of business; along with a sustained investment in state-of-the-art manufacturing systems and technology by the second generation of the Strassburger family has established a solid foundation for the company as a manufacturer of premium windows and doors. However, our growth to becoming a leader in Southwestern Ontario has been a partnership between a team of dedicated professionals at our plant and the finest window and door dealers in Ontario.

"Success is a long road. Building great products and a great company has taken many hands. Our family has been fortunate over the years to recruit outstanding people who have been the cornerstone of the company's achievement. Our future success is dependant on our persistent search for dealers that share our passion for ethics and excellence and can help our team become even stronger."
