## Multi-Point Locking Systems

Available on all our doors, multi-point locking systems provide increased security by locking at three different points.

## Hardware

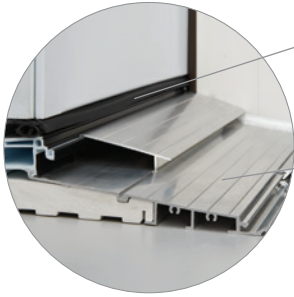

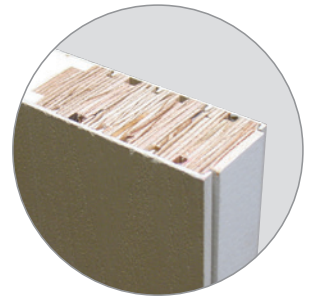

## Features and Benefits

Expect the same quality and performance from all our doors and sidelites. Strassburger door systems feature reinforced frames with remarkable strength and endurance. Guaranteed to provide outstanding performance for life.

- 1 Steel reinforced vinyl frame provides greater rigidity
- 2 Energy-efficient multi-chamber design
- 3 Magnetic and compression weather-stripping virtually eliminates air and water infiltration and creates a tight seal
- 4 Galvanized steel or fiberglass panels with HCFC free polyurethane foamcore insulation creating an R value of 13.1
- 5 New integrated sweep design configured with redesigned threshold to ensure a high wind and water rating
- 6 A series of sill extensions available to accommodate most wall thicknesses
- 7 Rot-resistant composite sub sill
- 8 Mill-finish or dark anodized finish
- 9 Gasketed and sealed to eliminate any water or moisture penetration

6000 Series Steel

Our fiberglass doors are equipped with two reinforced laminated wood stiles and a full length 4" lock block to ensure increased resistance to thermal bowing. Fiberglass doors will not dent or rust.

Routered and recessed; striker and lock plates are installed at the factory.

## Vented Doorlites and Interior Blinds

Our attention to detail doesn't stop at the door... it's the finishing touches that make a Strassburger door system complete.

### Elevation

Less than 10 lbs force is all that's required to open and close the glass.

A central lock set creates a superior seal.

### Discretion

Easy-glide opening mechanism.

Simply raise or lower blinds using the slider.
