

SERIES 6000

ENTRANCE AND TERRACE DOORS

Craftsmanship. Style. Performance.

Strassburger
SINCE 1949
WINDOWS AND DOORS

Beautifully Innovative

Performance and durability designed to fit your lifestyle

A door is only as strong as it's frame. Strassburger entry door systems feature reinforced frames with remarkable strength and endurance, guaranteed to provide steady secure performance for life.

6000 Series Steel

- 1 Energy-efficient multi-chamber design
- 2 Steel reinforced frames provide greater rigidity
- 3 Insulated door slabs are available in steel and smooth or textured finish fiberglass. Fiberglass is dent and rust resistant.
- 4 Tighter sweep detail - no more warping and a superior seal
- 5 Magnetic and compression weather stripping virtually eliminates air infiltration and creates a tight waterproof fit
- 6 Sealed joints eliminate moisture entry
- 7 Rot-resistant composite sub sill
- 8 Sills are available in two finishes. Mill or dark anodized aluminum
- 9 A variety of sill extensions are available to accommodate most wall thicknesses

These doors are made with components that are built to stand the test of time. You'll enjoy a "hassle-free" door system with performance, durability and elegance guaranteed for years of regular use. All door styles are ideal for the variable Canadian climate, are CSA-A440 compliant and meet EnergyStar® requirements.

- Multichamber profiles and multiple weatherstripping help eliminate outside noise
- Strassburger Steel and Fibreglass entrance doors, with their exceptional insulation, are among the most energy-efficient on the market
- 100% PVC extrusions are steel-reinforced for greater rigidity and provide superior resistance to severe weather conditions
- Super-strong frames are designed to withstand the rigours of daily use and any possibility of vandalism
- Optional multi-point locking systems provide additional added security and are available in several options, colours and finishes
- Our one-piece continuous sill is manufactured to increase strength and rigidity

Continuous sill

Designed for optimum performance

- Strassburger entry door systems are designed to be aesthetically and structurally compatible with other Strassburger window and patio door styles
- Ball-bearing hinges are available in several options, colours and finishes
- Standard extrusion colour is solid white. See colour chart for exterior standard and custom colours

The safer threshold

Ridged, slip-resistant mill-finish design

An attractive option

Also available in dark anodized finish

An Entryway To Fit Your Style

Designs to suit your taste and complement your home's architecture.

Innovative multi-point lock systems

Choose the optional multi-point lock system for increased strength and added security. The centre latch and deadbolts engage securely into multiple heavy-duty jamb faceplates to provide optimum stability and increased vandal resistance.

In-swing or out-swing options

Bring style and beauty to your entryway

Steel or fibreglass, Strassburger entrance doors add value and curb appeal to your new home or renovation.

Steel

Strassburger steel doors feature distinct high definition panel designs with the ultimate in security, pre-finished or ready to paint.

Fibreglass

Our smooth or textured finish fibreglass doors capture the beauty and elegance of a wood door without the maintenance. Available pre-finished or ready to paint or stain.

Decorative glass and casing

An endless variety of decorative glass inserts and casing choices for transom and sidelite applications are available to personalize your entryway. Visit strassburger.net for a list of suppliers

DOUBLE ENTRANCE DOORS

Make A Grand Statement

Traditional, contemporary or modern designs to enhance your entryway

Durable, functional and reliable. Lock systems you can count on.

Built directly into the astragal of the inactive door panel, our two point multi-action locking system provides the security, performance and added weather protection you expect. Simply flip the lever to activate the heavy duty shoot bolts into the upper and lower strikers to create a positive locking position. The inactive door panel can be opened simply by raising the spring-loaded lever conveniently located for you in the astragal. No more stretching or bending to reach those single action levers.

Twice as nice

Transform your entranceway with the added elegance and sophistication of a Strassburger double door. Available in steel or fibreglass, our double door systems are highly functional and feature optional multi-point locking hardware for additional added security and weather protection plus a wide variety of side lite and transom options.

TERRACE DOORS

Create A Lasting Impression

There's nothing ordinary about these extraordinary doors

Sophisticated beauty

Steel or fibreglass door slabs with decorative or insulated glass offer endless possibilities in conjunction with sidelites and/or transoms. Supported by a super strong uPVC multi-chamber frame, our two, three and four panel terrace door systems create the perfect entry to your dream living space.

In-swing only

Charm And Sophistication

Innovations that make your home more beautiful

Venting sidelite

Fixed sidelite

Let the fresh air in without compromising security

Our venting sidelite options open fully for increased ventilation and close tightly to provide superior weather protection and vandal resistance. Smooth operating fold-away handles combine with dual locks to give you unsurpassed functionality and style. Available with sleek profile, snap-in screens.

Add personality to your entrance door

Enhance the style and raise the perceived value of your home with one of our many decorative side lite options. Available in a standard or custom width, in either fixed or venting, with a variety of styles and types of glass and caming.

It's All In The Details

Our attention to detail doesn't stop at the door... it's the finishing touches that make a Strassburger door system complete

Brickmould and trim options

A wide variety of decorative brickmoulds, jamb extensions and trim options are available to finish your entrance or terrace patio door. Most brickmoulds have tear-out systems to allow for siding. Available only in standard white, these extrusions can be painted or stained to complement your chosen colour scheme.

The benefits of PVC, the appearance of wood

Double Nature® provides a range of inspiring looks that add beauty and a feeling of cosy comfort to your project, whether it's large or small, doors or windows. Double Nature® offers the organic and natural warmth of wood... without maintenance.

At once trendy and timeless, the natural wood finish of the Double Nature® collection blends with other materials and textures to give your project its own unique look.

With a finish that is applied to the inside and outside of the vinyl frame system, Double Nature® products provide the most realistic wood finish in the PVC industry. In conjunction with our variety of stained fibreglass doors it's the perfect combination of beauty and practicality, innovation and tradition.

Double Nature® is a water-based, UV-resistant stain available in a range of natural colours inspired by some of the world's most noble wood species: oak, walnut, mahogany, golden pecan, cherry and redwood.

Screen options

Standard 1/2 Screen

Standard smooth sliding 1/2 width screen is equipped with patented spring-loaded rollers, fully adjustable at each corner. Terrace doors only. Other mesh types available.

Hide-Away Screen

Optional Hide-away screen is a unique design that allows the screen to retract and be virtually out of sight when not in use.

Venting SideLite Screen

Available with sleek profile, snap-in black fibreglass mesh insect screen. Other mesh types available.

Standard or custom. You pick the colour

You've chosen the right door system to make your home just the way you want it, now it's time to pick that perfect colour. We offer 50 standard colours chosen specifically to complement any new home design or retro-fit. Custom colour matching is also available. All exterior paint colours come with a 15 year warranty. All exterior stain colours are warranted for 10 years.

These finishes are formulated to look better, last longer and are applied by our own specialists in a controlled, dust-free environment. We take care to use only water soluble paint so clean-up and disposal is efficient and doesn't affect the environment.

*Colour disclaimer: We cannot guarantee that the colours shown in the product images are exactly correct to the product. Please consult your Strassburger Windows and Doors dealer for a more accurate product and colour chip match.

The Energy Plus company since 1949

Proudly Canadian, we're dedicated to designing and building energy-efficient products

Strassburger Energy Star® energy-efficient entrance and terrace doors deliver year-round comfort and reduce, if not eliminate, condensation during colder weather. All Strassburger doors come with many glazing options to suit your needs and the region you live in.

To qualify for the Energy Star® mark, Strassburger windows and doors must meet strict technical requirements for thermal performance. They must qualify based on either their U-value (rate of heat transfer from a warm area to a cold area) or their Energy Rating (a scale that takes into account a product's U-value, potential solar gain and air tightness). To ensure the integrity of the Energy Star® mark, all product testing is done by accredited laboratories under standardized, quality-controlled conditions. Visit our website to review all the Energy Star® and NFRC ratings on all our products.

The best door systems, backed by the best warranty

We're so confident in the entrance and terrace doors we design and produce, we offer an unbeatable guarantee.

We promise to adhere to the highest standards of honesty and integrity in all our relationships with customers, suppliers, prospects and employees and at all times provide high-quality products and service.

Visit the Kitchener head office show room to see our complete line of windows and doors and talk to one of our knowledgeable sales personnel.
